WORK

2010 - present

MATTHAN GORI, MILAN, ITALY

Founder/ Designer: Highly experienced and passionate designer/entrepreneur with know-how developed through practical experience in business management, design and creation of collections; established and managed brand and fashion house, in charge of and overseeing all the stages of the design and manufacturing process from the conceptualization of designs, to preparing collections, photo shooting, participating in trade shows, marketing, communicating with clients and suppliers, and creating the garments.

2010 - 2014

UTOPS, ISTANBUL, TURKEY

Consultant/Design Manager: Responsible for the development of innovative solutions to advance the strategic positioning of the company; studied trends and fashion flows, provided market and competition analysis, constructed the collection structure, coordinated the manufacturing stages and oversaw meetings with the distribution.

2009 - 2010

STONE ISLAND, RAVARINO, ITALY

Junior Designer: Realized an innovative fabric, treated with powdered marble. Project together with Carlo Rivetti, the Stone Island brand creative director; realized several samples of coatings with variants effects; produced a 9 piece male jackets collection.

TEACHING EXPERIENCE

2011 - present

POLITECNICO DI MILANO, MILAN, ITALY

Professor: Currently instructing three courses: the thesis course advising students on how to orchestrate and direct entire fashion projects from inception to finalization, computerized pattern design systems course where students learn to use computer software (Gerber Accumark, Lectra Modaris) used by pattern makers in the fashion industry and computerized 3D yarn making course where students learn how to use computer software to make yarn (Lectra Kaledo Style, Lectra Kaledo Knit).

2012

AMERICAN UNIVERSITY OF SCIENCE AND TECHNOLOGY, BEIRUT, LEBANON

Professor: Instructed pattern design to undergraduate students in the newly founded Fashion Design Program in AUST. Students gained both a theoretical and practical knowledge to pattern making learning how to construct basic flat patterns and creative patterns by analyzing the stylistic evolution of lines and design proposals.

2010

NY FASHION INSTITUTE OF TECHNOLOGY, MILAN, ITALY

Professor: Taught computerized pattern design system at FIT's International Fashion Design Program where students enhanced their pattern making skills by learning Gerber Accumark Pattern Design System which enabled them to quickly design new garments and modify existing patterns. Students were also familiarized with the production process starting from the preparation of patterns, models and model order form, calculation of expenses and pricing.
